This week, 212 more people received regular UI benefits than last week, bringing the weekly total to 5,866. Compared to last year, 573 fewer people obtained regular UI compensation, which is 8.9 percent less than the forty-ninth week of 2016.

The number of weeks compensated does not equate to the number of people receiving benefits. This is because it is possible for an individual to receive multiple weeks of compensation under certain circumstances. The total number of people who have received benefits this week for all regular programs, including UI, UCCE and UCX claimants, is 5,678.
